SKIRT DANCING FOR CHARITY.

Though the practice of skirt dancing all the Puritans abuse, A little indecorum we may easily excuse, 'Tis for charity the noble dames so lightly dance and sing, If not, of course, they wouldn't think of doing such a thing. But I cannot help remarking, when the dancing once begins, That charity uncovereth a multitude of shins.

## DEADLY DIPHTHERIA.

The Disease Has Assumed an Epidemic Form—Warning to the Public.

THE LEDGER believes in telling the truth. Human life is more precious than money. Therefore, while it may temporarily injure the business of the city, our advice to country people is to keep their children away from Maysville, and our advice to heads of families in the city is to keep the little ones at home until the danger is past. Diphtheria is epidemic here, and it is but just to the public that THE LEDGER should let it be known. When the danger is over it will be our pleasure to announce the fact.

## Cholera.

When properly treated as soon as the first symptoms appear, cholera can nearly always be cured. The patient should go immediately to bed and remain as quiet as possible. Send for a physician, but while awaiting his arrival take Chamberlain's Colic, Cholera and Diarrhoea Remedy in double doses after each operation of the bowels more than natural. If there is severe pain or cramps, take it in double doses every fifteen minutes until relieved. This Remedy has been used with great success in seven epidemics of dysentery that were almost as severe and dangerous as cholera, and if used as directed a cure is almost certain. Every family should have a 50 cent bottle at hand ready for instant use. After the disease is under control castor oil must be taken to cleanse the system. No other physic or substitute will do in place of castor oil. For sale by Power & Reynolds, Druggists.

## To His Friends and Neighbors.

The admirable courage and loving nature of President Harrison were never more aptly illustrated than by his tender regard for his old friends and neighbors at Indianapolis just before starting on the saddest journey of his life.

With his whole being racked by emotions such as would render most men un-mindful of their surroundings, just before the train left he dictated and signed the following, with the request that it should be furnished to the local press:

My Dear Old Friends and Neighbors: I cannot leave you without saying that the tender and gracious sympathy which you have to-day shown me, and for my children, and much more, the touching evidences you have given of your love for the dear wife and mother, have deeply moved our hearts. We yearn to tarry with you, and rest near the hallowed spot where your loving hands have laid our dead; but the little grandchildren watch in wondering silence for our return, and need our care, and some public business will not longer wait upon my sorrow.

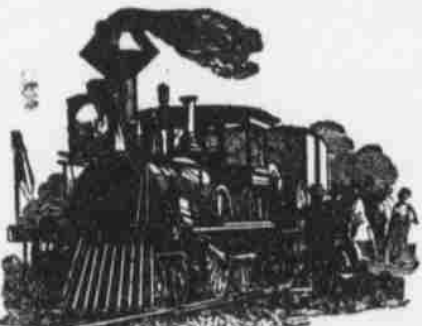

May a gracious God keep and bless you all. Most gratefully yours,  
BENJAMIN HARRISON.

LOUIS E. WALTER, aged 3 years, son of Mr. and Mrs. Charles A. Walter, died in the Fifth Ward yesterday afternoon of diphtheria. The funeral will occur this afternoon at 3:30 from the family residence, East Second street, Rev. D. B. Holt conducting the services.

## "Startling!"

Calisthenic Bagpipe Taylor orated before the Burr Oak Single X Democratic Club the other night, and among numerous other ethereal promises he declared that his mission was "to remove the shackles from the legs of every man, woman and child in the precinct." And the ashes of Demosthenes peeped through a crack in the coffin.

## A Cholera Scare.

A reported outbreak of cholera at Helmetta, N. J., created much excitement in that vicinity. Investigation showed that the disease was not cholera but a violent dysentery, which is almost as severe and dangerous as cholera. Mr. Walter Willard, a prominent merchant of Jamesburg, two miles from Helmetta, says Chamberlain's Colic, Cholera and Diarrhoea Remedy has given great satisfaction in the most severe cases of dysentery. It is certainly one of the best things made. For sale by Power & Reynolds, Druggists.

## A FORTUNE.

One Hundred and Fifty Thousand Dollars for a Horse.

The Great Stallion Ormonde, the Peer of the English Race Track.

Wm. MacDonough, a California Capitalist, the Purchaser—The Great Race Horse Now in Buenos Ayres, But Will Be Brought to California.

SAN FRANCISCO, Nov. 1.—Wm. O. B. MacDonough, a capitalist of this city, has cabled the sum of \$150,000 to the Rothschilds, London, to be held by them subject to the order of the Tatter sails in payment for the great stallion Ormonde, the peer of the English turf which MacDonough has purchased. Ormonde was bred by the Duke of Westminster in 1883, but is now owned at Buenos Ayres. MacDonough will have the horse brought to California and placed in his stud.

Ormonde's record as a race horse is well known. In his career on the turf he ran against all the great horses in England and was never defeated. His triumphs as a three-year-old in 1886 include the triple victory of 2,000 guineas stake, the Derby and St. Leger, his winnings in that year amounted to \$125,000. His total winnings for three years exceeded \$145,000. Ormonde's greatest value is considered to be in his qualities as a sire, three of his productions being the great two-year-old Goldfinch, Lanthony and Odorine. Bronchial or asthmatic trouble led to the transfer of Ormonde from the English stables of the duke of Westminster to the warmer climate of Buenos Ayres, \$60,000 being paid by Don Juan Bocan for the great racer.

The story of the purchase of Ormonde by MacDonough, who is a son of W. F. MacDonough, the millionaire coal dealer, is an interesting one. Chas. Reed, of Fairview, Tenn., who surpassed the sporting world with his purchase of the stallion St. Blaise, for which he paid \$100,000, outbidding such men as Haggin, Lordillard, Dely and Morris, wanted Ormonde and went to South America some weeks ago to effect a purchase if possible. MacDonough had already announced to a few intimate friends his intention to negotiate for Ormonde, and when he learned of Reed's departure he lost no time in cabling Tattersalls of London, to open negotiations with Bocan's agent, at the same time sending Dr. J. H. Ross to London to push the matter. A number of cablegrams were exchanged, and on October 24, MacDonough was notified that Reed, who had convinced himself of the soundness of Ormonde for stud purposes, had offered \$25,000 for the horse. MacDonough immediately raised the bid to \$30,000, and Sunday received a cablegram announcing that his offer was accepted.

Ormonde will make the voyage from Buenos Ayres to England and from England to New York by sea, thence overland to San Francisco. He is expected to profit by the sea voyage and be still further benefited by the California climate. MacDonough has a large stable and among his yearlings are many promising fillies. Three brood mares in his possession are especially noteworthy. Flora, sister of Raveol; Lady Marian, sister of St. John, and Fair Lady, who from two untied and indifferently sires produced Bermuda and Dagonet, known everywhere in racing circles. The rumor of MacDonough's offer and probable purchase leaked out here on Saturday, but was not generally credited, the price being the largest ever paid for a piece of horseflesh, and the risk attending the transportation being considered too great.
